Introducing oodle™

Innovative Design.
Often our ongoing pursuit of designs that inspire the minds of PK12 students takes us to places we would have never imagined even five or ten years ago. One such result is finally here. Meet oodle.

Watch the Video

Switch it Up.
Keep your space fresh by switching things up in a flash. You're never stuck with one height or one color. And the unique roller base system maximizes versatility. Sit flat, or sit with movement on the very same stool.

Moving Up.
Oodle's bold colors and clean shapes bring a sophisticated, graphic palette to any environment. Individual stool sections come in five mix-and-match colors. Designed and manufactured in the USA.

All Students Welcome.
Students come in all shapes and sizes. In the design of oodle, we considered every body type. With 17 inches of seating surface, larger students will feel just as welcome using an oodle. We suggest several units set up without motion for students that prefer not to "wobble," but still want to join the fun.
